

## **Nanzan Elementary School Where Every Student Grows by Learning**

~Nurturing global character~

~Establishing the school with the community~

Nanzan Elementary School was established in 1876 and it is a school with 143 years of history and traditions.

Nanzan Elementary School is rooted in the local community as well as being multi-cultural since Roppongi and Azabu are in our school district along with the shopping arcade, embassies, and temples in our neighborhood.

Our school's slogan is "Nanzan Elementary School Where Every Student Grows by Learning" ~Nurturing global character, Establishing the school with the community~. All the school faculty will strive to embody this educational goal.

It has been three years since the English Support Course started, and there are two classes in grades 1 through 3, nine classes in total, and 228 students in our school.

We will teach classes based on improving thinking ability, judgement, and expressive ability in their daily study, and strive to have every student experience the sensation of "I understand it," "I can do it," and "It is fun." We also make efforts to build healthy minds and bodies through encounters with the community and interactions with athletes.

Nanzan Elementary School is responsible for public education and will strive to nurture the students' "zest for life" and their growth while building a reliable and safe school that is full of the smiles of children and adults through cooperating with families, local communities, and related organizations. *Yoroshiku onegai shimasu.*
