Nanzan Elementary School Where Every Student Grows by Learning

~Nurturing Global Character~ ~ Establishing the School with the Community~

[Upon the Departure]

My name is Akio Nanba and I was appointed as the principal of Minato City Nanzan Elementary School. Pleased to meet you. The school welcomes fifty six Grade 1 students and starts its new school year with a total of 228 students.

To embody our school's academic goals, "Children who are healthy and cheerful," "Children who think things through and do not give up," and "Children who cooperate and get along with others," all the school faculty unite as one and strive for fulfilling academic activities every day. Your understanding and cooperation will be greatly appreciated.

[Aiming to Establish a School which Values Individuals]

For both adults and children, April is an important turning point for things such as entering school or moving on to new grades. However, at the same time it is filled with new hopes and ambitions. When we, as adults, stop for a moment and look around during the busy days, sometimes we discover things that are hardly recognized in our everyday life. In the same way as this, the good qualities of children can be found if we engage with them by taking more time than usual. It is an adult's responsibility to support the children's growth.

Nanzan Elementary School will carry out its responsibilities as an institution of public education, engage in creating a reliable and safe school that is full of smiles on both children and adult's faces while nurturing all the children in cooperation with families, the neighborhood community, and people involved as well as striving to foster "a zest for life". Your understanding and cooperation will be greatly appreciated throughout the year.
