The Qualities and Traditions of Nanzan

~ Aiming for "Nanzan Elementary School, Where Every Student Grows by Learning~

Congratulations on your child's enrollment and advancement to the next grade.

We will start the new school year with 10 classes and a total of 285 students. The kanji that I have chosen this year to represent my wish for the students at our school is 「健」 (*ken*; health). This kanji carries various meanings with it, such as "strong and healthy bodies and minds," "full of energy," "strength," and "sturdiness." We will strive to nurture the students in good mental and physical health while continuing to take measures against infectious diseases. Following is a list of the school's key goals.

<Standards for Students> Children who learn, think, judge, and express themselves.
 <Standards for the School> A school that uses organizational power to solve problems.
 <Standards for Teachers> Teachers who continue to learn with a high level of expertise and a rich sense of humanity.

At our school, we pursue intentional, planned, and ongoing academic activities, and we will collaborate with families and the community to create a new <Nanzan Brand> of "quality and tradition." We are committed to the development of every student and creating a safe and secure school filled with smiling children, parents, teachers and faculty. Thank you for your understanding and cooperation in the coming year.
