For the 2021~2022 School Year We Welcome Nanzan's 145th Anniversary

~ Aiming to Establish the Nanzan Brand ~

Congratulations on your child's admission to Nanzan or advancement to the next grade.

We start this year with 278 students and 11 classes. April is an important milestone for children and adults and is filled with new hope and motivation. The school will take time to connect with each student, we will acknowledge the qualities in each of them and build a solid relationship of mutual trust.

The "Nanzan Brand" is our school's "qualities and traditions." In the 2021~2022 school year, while conducting our academic activities purposefully, continuously, and in a planned way, a new "Nanzan Brand," that is, new "qualities and traditions" for our school will be created together with the families and the community.

The main goals for building the <Nanzan Brand> are as follows.

<Standards for the Students> Children who can learn, think, and express themselves independently.

<Standards for the School> A school where the faculty have ambition to learn and improve as educators.

<Standards for the Teachers> Teachers who keep improving themselves with high levels of professionalism and rich humanity.

"Team Nanzan" will work as one to create a safe and secure school where all students can grow and students and teachers can smile while coordinating with the families, the community, and related organizations. I look forward to working with you over the course of the year.
